

Thank you for considering a tree for your right-of-way space at your property! You are helping to grow Cortland's urban forest with the many benefits trees provide. These trees are provided and planted by the City of Cortland at no cost to you.

Please view the tree choices offered below. Property owners with overhead utility lines will select either the maple, hawthorn, or serviceberry, while properties without primary lines will choose the elm or linden. Because these trees are reserved at the grower in the fall, **your application is due by October 2, 2023.**

## Tree choices

### Underwire Trees

'Highland Park' Maple — Pyramidal form, 35' tall x 22' wide with bright red leaves in autumn

'Winter King' Hawthorn — Rounded, 20' tall x 25' wide with white flowers and orange-red fruit

'Spring Flurry' Serviceberry — Oval, 35' tall x 20' wide with white flowers in spring; orange fall color

## Tall Trees

'Triumph' Elm — 40' tall x 30' wide with beautiful burgundy fall color

'Harvest Gold' Linden — Pyramidal form, 40' tall x 30' wide with glossy dark green foliage that turns bright golden-yellow in autumn

Linden  
leaves  
are  
green  
in  
summer.
